## INFUSIONS

An alcohol infusion is a spirit that has gained the color, flavor, and palate attributes of any combination of dry fruits, vegetables, herbs or spices through the action of chemical osmosis. Over a period of days to months, we allow various seasonal ingredients to steep in appropriate alcohol mediums until they have fully imparted their flavor, at which point they are discarded and only the flavored liquor remains. Beverages are then created that utilize and accentuate the unique character of the natural infusion. We emphasize the use of fresh, seasonal ingredients locally and organically grown wherever possible. Your bartender will be happy to suggest a great beverage using any of our infusions or you may create your own!
